

Reading machine

MagniLink Voice 2

Gives your text a voice

MagniLink Voice 2 is a reading machine with focus on simplicity, high performance and contemporary design. It's the user-friendly reading machine that exceeds expectations.

Easy to use

Simply push the large tactile orange button and convert your text into speech!

Design and function in harmony

Premium material, details and finish ensure that the unit is as stable as it is durable. And when placed in your home or office, it looks great in any environment.

Mobile

Compact and lightweight – easily transport from location to location.

More useful features

- Easy set up – move the camera arm up and start
- Adaptable to the individual user, by adjusting reading speed, volume, audio profiles, voices, light and more
- Reads misaligned documents
- Reads a full US Letter page
- Automatic language detection
- Extremely good depth of field – optimized for browsing large books
- Digital documents on USB can also be read aloud
- Voice feedback for all functions

Battery option

This option features a high performance battery that provides up to 5 hours of portable operation – perfect on the trip!

Monitor output option

With this option, you can present the scanned text on a monitor, thus adding a visual display to the text being read aloud. This facilitates document orientation and improves reading comprehension.
