## PRODUCT DESCRIPTION

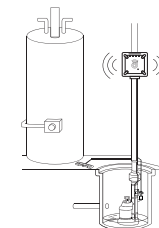

Level Sense (by Sump Alarm) is the all purpose basement or room protector (Indoor Only). This industry leading sump pump and home environmental alarm is packed with features at an economical price.

Level Sense Pro allows you to set alarms based on power failure, high and low temperature, high and low humidity, water leaks and water level, and sends text and email notifications and sounds a 100dB horn when alarm conditions occur. Alarms can also be configured to be sent to unlimited recipients as well.

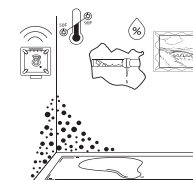

Level Sense Pro can also show the depth of water in your sump online, monitor the humidity and alert if water comes through the foundation (humidity of 60% or more is required for mold to grow), detect and send an alert temperatures above or below those you specify (guarding against frozen pipes), detect leaks, alert if AC power is lost to the unit, and is able to interface to a home alarm (or other device).

## PRODUCT INFORMATION

Product Dimensions:	5 x 1.2 x 5 inches
