Pool lights for **NEW**
and **EXISTING** pools

Resort Style Lighting at Home

Company:

Aqua-Quip is synonymous with exceptional pool lighting systems.

Design Service:

Aqua-Quip's award winning design service aids with the formation of exquisite lighting concepts.

Advanced Pool Lighting System:

- Fixed Colour Option: Super-bright White, Blue or Green LED's.
- Multi-Colour Option: Spectrum III Colour Changing LED's, featuring the user friendly & innovative Colour Selection Palette and memory-save feature.
- Spectrum III is user-programmable to start up in the Flash or Scroll Feature Modes or Specific Colour of your choice.
- Energy efficient operation, low power consumption.
- LED's operate from a "Variable Voltage" supply ranging from 12volt through to 32volt. Therefore, no need to buy a new transformer when purchasing Retro-Fit pool lights.
- Retro-Fit lights are designed to fit on top of the original mounting bracket of all original brands.
- Simply remove the old pool light and join the Aqua-Quip light to the existing cable using our patented procedure.
- Proudly made in Australia.

Applications:

- Upgrade your old surface mounted lighting system to Aqua-Quip.
- Universal Multi-Fit Bracket easily fits all brands of pool lights.
- Wide range of colours and cable lengths for new pools.
- Halogen options still available.

THE MOST AFFORDABLE WAY TO REJUVENATE YOUR POOL.
