## INSTRUCTIONS FOR USE

1. This product is intended for baby cradle rocking. No other use is permitted.
2. The maximum weight of this product is 18 kg.
3. This product must be installed in accordance with the Installation Guide. Incorrect installation may result in a product drop accident.
4. Before placing the baby in the cradle, please turn the cradle machine off first, to avoid the machine perceiving the weight and scaring the baby.
5. Please turn off the power before taking out the baby from the crib.
6. The product must be used on the presence of the adult care taker.
7. When starting the cradle machine, please slowly slide up and adjust the speed, and slightly push down the cradle cloth to bring the cradle machine to start power.
8. Observe whether the speed of shaking is suitable, and then continue to adjust upward until it is suitable.
9. To be on the safe side, please purchase other parts of the cradle machine from the original manufacturer, such as springs, hanging rings, transmission ropes and power plugs.
10. If the electric cradle machine does not function properly, stop using it and contact the dealer or authorized electric cradle machine repair center.
11. Please stop using this machine when the baby can sit up or crawl. If you want to continue using this machine, you must use it under the control of an adult.
12. Unplug the power cord when not in use. The original power plug must be used. The use of uncertified non-original power plugs may cause electric shock, fire, explosion and other hazards.

## WARNING!

Failure to follow these warnings and instructions could result in serious injury or death.

### FALL HAZARD

Always check that the bassinet is securely locked on the stand by pulling up and down on the bassinet bed.

- To prevent falls, do not use this product when the baby starts to push up on hands and knees or has reached 18kg, whichever comes first.

### SUFFOCATION HAZARD

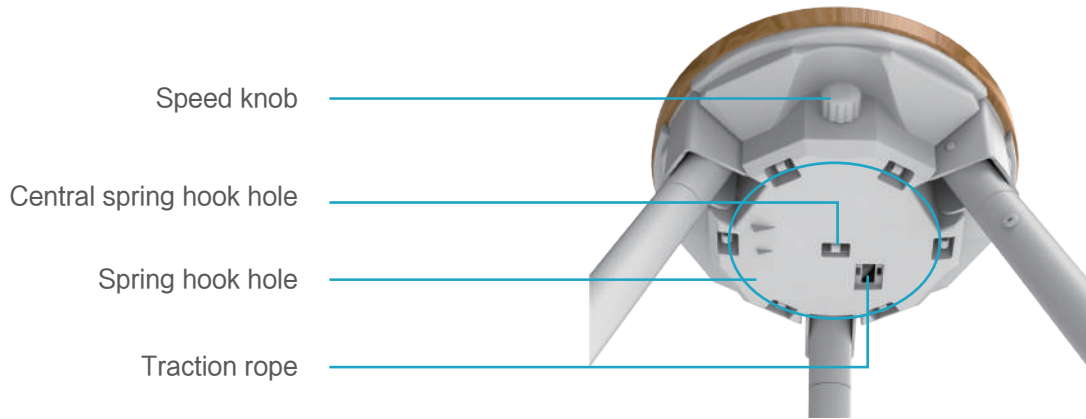

- On soft bedding, use only the pad provided by the manufacturer. Never add a pillow, comforter, or other mattress for padding.
- Leave a gap between extra padding and side of the bassinet/cribble.
- Do not place items with a string around a child's neck, such as hood strings or pacifier cords. Do not hang strings on a bassinet or cradle or attach strings to toys. Strings can cause strangulation!
- To reduce the risk of SIDS, pediatricians recommend that healthy infants be placed on their backs to sleep, unless advised otherwise by your physician.
  
- This product and its associated parts have been scientifically designed and tested for safety, so should only be used with products supplied by the manufacturer.
