FENNEK FEUERPLATTE

FENNEK FIRE PLATE

FENNEK®

DE Schnellanleitung

EN Quickstart

3 Windschutz in Nasen einhängen.
Hook the draft shield into the lugs.

4 Feuerplatte nur zu zweit anheben!
Lift the fire plate only in pairs!

Feuerplatte vorm ersten Gebrauch mit geeignetem Mittel reinigen, danach mit Lebensmittelöl einreiben und einbrennen lassen. Wenn sich die Feuerplatte nach oben wölbt, muss sie umgedreht werden.
Wichtig: Die Wölbung muss immer unten sein!

Before using the fire plate for the first time, clean it with a suitable agent, then rub it with food oil and let it burn in. If the fire plate curves upwards, it must be turned over.

Important: The curvature must always be at the bottom!
