ENGINEERED FOR QUALITY

Creating a timber floor that shows character starts with an emphasis on the right details and the right process. Our Prestige Oak Flooring collections are engineered for the highest quality, endurance, durability and flexibility. These extra wide and long boards are available in 4mm or 6mm top wear layer on a multiple timber ply substrate in which the grains are designed to run perpendicular to each other, making it near impossible to swell or shrink, providing ultimate stability.

- 15mm Range: 1900mm long x 190mm wide, 4mm top wear layer.
- 21mm Range: 2200mm long x 220mm wide, 6mm top wear layer.
- Tongue and Groove profile can be installed as either direct stick or floated and is the preferred choice creating a silent and comfortable outcome.
- Including <25% random short boards in each box.
- Product Grade is ABCD.
- Janka Hardness Rating of 6.6 kN.
- Moisture Content: 8-10%.
- Density: 0.75g/cm².
