The Shadow porcelain range is your stylish choice in either matte, lappato or structured. The matte tile channels traditional aspirations with some anti-slip characteristics.

Our lappato option has a hint of exclusivity and refinement. If you need a solution for external surfaces, opt for a rougher look with the highest anti-slip characteristics that a structured finish can offer.

Not all sizes, colours and finishes are available in each state. Please contact your Sales Representative, Local Office, or check on the Stoneworld Portal for availability, full terms and conditions of sale and further information on our products.
