

TERRAZZO STONE

The origins of Terrazzo can be found in ancient Egypt, but were perfected by the Venetians in the 16th Century. A composite made from chunks of marble, quartz, glass and granite in a cement, it became trendy again in 1930's American Art Deco buildings.

Our Terrazzo Stone showcases a range of true to life Terrazzo designs, in a variety of colours, to satisfy your need for this time-honoured look.
