## 5711 Modular shelving system with polymer removable shelf inserts

### Static modular shelving system

Assembly is through conic metal clips manufactured in anodized aluminium and with the popular system patented uprights/horizontal shelf rails.

The 5711 Fermostock can be installed in single units or combinations allowing a number of configurations including « L », « U », « T », and « + » layouts.

This system allows one person to carry out the installation quickly and efficiently without the need of tools.

The 5711 FERMOSTOCK is designed for the food industry and conforms to the constructions regulations ensuring the highest hygienic standards. Suitable for temperatures (when loaded) - 40°C to + 80°C. Each polymer insert is dishwasher safe (maxi + 100°C).

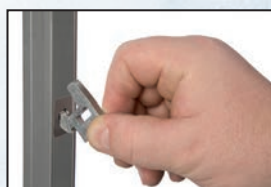

FERMOSTOCK 5711 offers the solutions in space management ensuring maximum use of available storage area through combinations of its standards units. We offer the facility for self design through our Fermostock layout and costing program available on request.

Available sizes:

2 heights of uprights : 1685, 1800 mm

2 depths : 360 mm\*, 460 mm (\* Dimension to receive Gastronorm trays)

10 lengths : 650, 770, 890, 950, 1070, 1190, 1310, 1490, 1610, 1730 mm

Tool free assembly
