

"BS Button Game" offers an entertaining way to sharpen your deception detection and bluffing skills while enjoying quality time with loved ones. Here's a quick overview of how to play:

1. **Deal Cards:** Distribute the beautifully illustrated, casino-quality cards equally among all players, and start a discard pile with any extras.
2. **Dealer's Turn:** The dealer chooses a card value and discards up to four cards face down. For example, they might say, "Three 9's" and discard three cards.
3. **Player's Turn:** Play proceeds in a clockwise manner, with each player calling the card in either ascending or descending sequence to the last one played.
4. **Bluffing:** Players without the required cards must bluff. Others can challenge a bluff by hitting the BS Button, which triggers one of 60 hilarious BS sounds, each a celebrity impression. Discards are then revealed. If the call is valid, all discards go to the bluffer's hand; if not, they go to the caller's hand.
5. **Winning:** The first player to discard all their cards without a valid call of bullshit wins.
6. **Playing the Bureaucrat:** Bureaucrat cards can override valid calls of bullshit. If a player is wrong in calling a bluff, they can use a bureaucrat card to be forgiven. Jokers and bureaucrats are wild, becoming part of the discard pile when played. They're removed from the game once exposed.

Enjoy playing the Original BS Button Game® and have a hilarious time honing your BS detection skills! And remember, if you're lucky, you can play the bureaucrat. 😊
