HANDS

Visitors to the immersive exhibit by Hands experienced their legacy of hand-made carpets while viewing the Disperse collection. Contemporary woven works that perfectly capture the beauty, mystique and nature of light make up the selection. The hand-knotted carpets, which come in ten different patterns and two colourways each, are made of botanical silk. The Grand Mosque of Nur-Sultan, Kazakhstan, the biggest mosque in Central Asia, commissioned them to make the largest handmade carpet in the world, which they also displayed. www.handscarpet.com
