FOR 30 YEARS SHARK HELMETS HAS BEEN COMMITTED TO INNOVATION, PERFORMANCE, SAFETY FOR THE BENEFIT OF ALL RIDERS.
SHARK Helmets offers top-end helmets, which are also worn by top-level riders because there can be no compromise on safety at high speed. These riders are involved in all the product development phases and enable us to constantly innovate.
A shell built with a COVA (Carbon On View & Aramid) structure: lightweight, resistance to both abrasion and compression, effective at preventing delamination, shock absorption.

An "Optics 1" category flat visor without any visual distortion thanks to a variable thickness (4.2/2.8 mm).

Double back spoiler to ensure both aerodynamics and stability at high speed.

Performance & style. The Shark Helmets Sport range of racing style helmets use the technology created by our racing teams.
1. Double spoiler with incorporated air extractors: optimization of the aerodynamic trail and internal cooling.
2. Autoseal system: flattens the visor onto the helmet, offers better noiseproofing and seals the helmet against water and cold.
4. Micro-tech interior with antibacterial properties under the "AEGIS" label.
Warning: This helmet is sold with a LED system that you can switch off.

Drive safely and in accordance with the law. Check if the national or local legislation in effect in your country does not limit the use of LED.

- Optimized aerodynamics generated by a CFD (Computational Fluid Dynamics) study.
- Base seal that stands out by its sharp "aggressive" look.
- Spoiler with a distinct sporty profile.

Be ahead of your time. This range provides optimal safety and comfort for very long distance biking. In this case, Shark Helmets' Research and Innovation Division has delivered a truly practical and modular range.
Compact aerodynamic profile plus a tremendous reduction in airborne noise thanks to CFD design (by simulating computational fluids).
Optimized chin guard locking system: ergonomics and flexibility during use.
The patented «Auto-up / Auto-down» system allows automatically lifting the visor while raising or lowering the chin guard.

Enjoy the feeling of riding your motorcycle while remaining connected to your phone for listening to music, following the directions of your GPS, and making or receiving calls.

Easy to assemble, SHARKTOOTH® PRIME also serves as an intercom linking driver with passenger or one motorcycle with another. «Extra slim» and very high quality head-phones:
- optimal comfort
- A2DP (Advanced Audio Distribution Profile) stereo music

- 100% waterproof external control system featuring minimal encumbrance: both discretion and maximum safety guaranteed.

- Rechargeable battery (USB micro port). 8 hours of autonomy in conversation mode.
- Technically sophisticated microphone with a swivel arm and «DSP» (Digital Signal Processor) technology:
  - reduces background noise
  - ensures top voice quality
  - Ergonomic amenity: managing all functionalities via just two external button
  - Programming assistance:
    - Red and blue light indicator
    - Voice guide
  - Ultra lightweight intercom (weighs a mere 75 g), causing no additional tension in the neck area.

- Compatibility: SHARKTOOTH® PRIME can be integrated in all SHARK helmets (jet, integral and modular) displaying the “SHARKTOOTH® Ready” symbol (dedicated slot for installing SHARKTOOTH® PRIME)

- Compatibility with other Intercom devices: the pairing of the SHARKTOOTH® Prime is possible with all systems equipped with the «Universal intercom» function.

- 2-year warranty
