

The only thing
he'll be
leaving behind
are footprints
in the sand.

#PARENT *fearlessly*

**FINALLY, TRAINING PANTS WITH
SUPERNATURAL PERFORMANCE.**

Free of harmful chemicals, perfumes and
all known allergens means comfort, happiness
and serenity. Oh, for your baby too.

Ultra Soft Materials

Baby's skin is fragile and vulnerable. We source the softest materials for a soft flexible fit all around.

Thinner Design

Using improved technology, we created a thinner design that allows for maximum absorbency without adding bulk for optimal mobility.

Guaranteed Skin-Safe

Our diapers are dermatologically tested, totally chlorine free (TCF), and free of all known allergens and harmful chemicals, including fragrance, phthalates, parabens, lotions or preservatives.

Fully Breathable Backsheet

Our fully breathable backsheet promotes a cooler, more comfortable experience and helps keep fragile skin dry, thus reducing the likelihood of rashes and irritation.

Dual Leakage Barriers

Our training pants are anatomically designed and feature strategically placed dual leakage barriers to reduce the chance of leaks and blowouts for up to 12 hours.

Ultra Fast Absorption

Our super absorbent, three-layer design pulls moisture away from the skin using ultra-fast absorbing channels to ensure dry and healthy skin, even after multiple wettings.

Wetness Indicator

Our new liquid-sensitive strip changes color to indicate wetness so parents can stay in-the-know. Now available on all pants sizes 4-6.

SIZE CHART

	size 4	size 5	size 6
WEIGHT	15-26 lbs	24-37 lbs	33+ lbs
UNITS/BAG	22	20	19
BAGS/CASE	5	5	5
ITEM NUMBER	16929	16930	16931
UPC NUMBER	850001271899	850001271905	850001271912

Bambo Nature Training Pants are certified skin-safe. With our flexible, thin, and easy to pull up and down design, our training pants are designed to make potty training easier for toddlers (and for parents).

Our three-layer design has a super absorbent core that provides soft, effective protection for day and night, while our fully breathable backsheet helps ensure dryness and reduces the likelihood of a rash.

And because our training pants are free of harmful chemicals and all known allergens, your toddler's skin will stay more than just dry, it will stay safe.
