Fully Breathable Backsheet

Our fully breathable backsheet promotes a cooler, more comfortable experience and helps keep fragile skin dry, thus reducing the likelihood of rashes and irritation.

Ultra Flexible Side Panels

Our refastenable hook tabs allow for easy repositioning while our flexible side panels ensure a snug yet comfortable fit. Perfect for all day and all night protection.

Ultra Soft Materials

Baby's skin is fragile and vulnerable. We source the softest materials for comfort and protection.

Enhanced Leakage Protection

Our Overnight Diapers feature strategically placed enhanced leakage barriers to reduce the chance of leaks and blowouts, and ultimately last all night long.

Guaranteed Skin-Safe / TCF

Our diapers are dermatologically tested, totally chlorine-free and free of all known allergens and harmful chemicals.

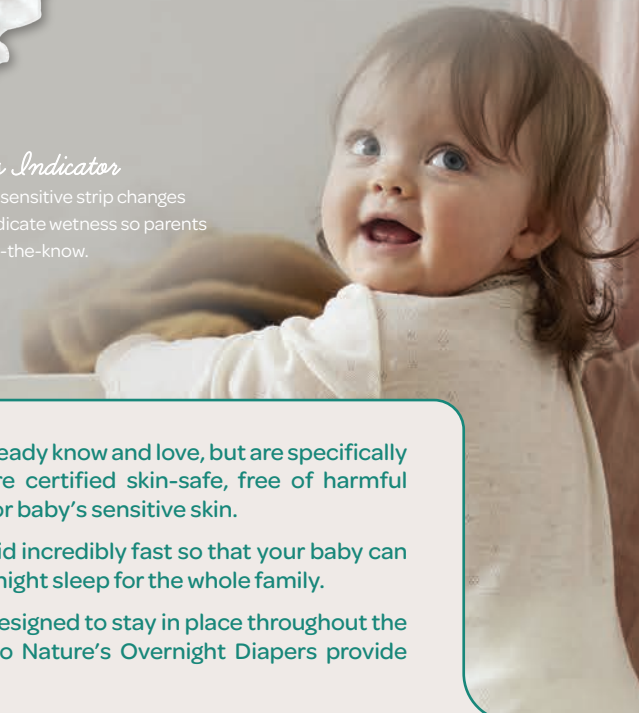

NEW Channel Technology

The Overnight Diaper has been manufactured with channel technology to specifically absorb large volumes of liquid impressively fast, ensuring the diapers can hold several urinations throughout the night to keep your baby dry and comfortable for several hours.

Wetness Indicator

Our liquid-sensitive strip changes color to indicate wetness so parents can stay in-the-know.

Bambo Nature's Overnight Diapers are a lot like our Dream Diapers you already know and love, but are specifically designed for nighttime. Our premium disposable overnight diapers are certified skin-safe, free of harmful chemicals and all known allergens making them perfect for baby's sensitive skin.

Our unique Channel Technology is meant to absorb large volumes of liquid incredibly fast so that your baby can stay dry and comfortable for several hours which means a better night sleep for the whole family.

These diapers do it all! The latex-free leg cuffs provide a leakage barrier designed to stay in place throughout the entire night, even when your baby moves around in their sleep. Bambo Nature's Overnight Diapers provide supreme protection all night long!
