OUR PROMISE

Artfully engineered by an aerospace engineer using simple modular designs, Astra delivers highly reliable, affordable machines that have been produced in Los Angeles, CA since 1993. Engineered for both aesthetic and efficiency excellence, Astra products are remarkably durable and exceptional at delivering uncompromising espresso time after time.

High Quality Machines

Unmatched performance and top-of-the-line quality

- All steel chassis
- All metal internal brewing mechanism
- Aerospace-grade hosing and wiring components

Simple, Sophisticated Design

Modular parts combined with intuitive features

- Built to easily install, operate, and maintain
- Intelliprogram™* smart features offer innovative capabilities
- Uncomplicated water and electrical hook up

Exceptional Service

Unparalleled tech support team available to help with questions and repairs

- Nationwide service and training options
- Phone support for troubleshooting

Global Excellence

Locally constructed with world class standards

- All parts stocked in the USA
- Handcrafted in the USA
- US-standard parts

*available on select products.

Astra Espresso Machine Product Line

Automatic

SA Super Automatic

Anyone can produce barista-made quality with Astra's fully automated machines which produce up to 16 drink selections with the touch of a button. Intelliprogram™ smart features include pre-infusion options, programmable power cycling, management reporting and troubleshooting capabilities. Refrigerator option is fully integrated with self-cleaning process for food safety and ease of use. Available mobile cart option that operates from a standard 110 V outlet.

**Super Automatic Machines | A2000, SM111, SM222
Cart Option | CAR100**

A Automatic

Creating the perfect blend of artistry and consistency, Astra's automatic range provides portion control with the touch of a button. Designed for high output with the addition of a self-tamping, high-density group head, nickel plated copper boiler and a temperature stabilizing thermocycling system.

**Automatic Machines | ASTRA PRO, GAP022, GA021, M1011, M2C014,
M22012, M3013, MG200, MG008**

T Traditional

Astra's traditional espresso machines give the barista full control while crafting the perfect cup. Self-tamping, high-density group head, nickel plated copper boiler and temperature stabilizing thermocycling system make this the perfect choice for any operator offering specialty coffee.

**Traditional/ Semi Automatic Machines | GS022, GSP023, M1S016,
M2CS019, M2S017, M3S018**

Super Automatic

EFFICIENT. INTELLIGENT. EFFORTLESS.

Astra's Super Automatic series with Intelliprogram™ smart features allows anyone to deliver the perfect drink every time with the touch of a button. Fully automated from bean grinding to pressurized pouring, these machines are easy to operate and maintain.

1 Step Super Automatic

Double Hopper with Refrigerator SM222
Single Hopper with Refrigerator SM111

2 Step Super Automatic

Double Hopper with Steam Wand
ASTRA 2000

SM SERIES

- Capable of producing up to 14 different drinks
- Fully integrated refrigerator
- Automatically cleans and rinses components every 15 minutes and after every drink
- Vacuum valve prevents milk from entering the boiler
- Intelliprogram™ smart features
 - Programmable dosing
 - Pre-infusion capabilities
 - Management reporting and trouble shooting capabilities
 - Programmable 'on/off' feature ensures machine powers up/down on time everyday
- Quiet internal motor with rotary-vane Procon pump
- Easy plumbed water connection & drain hook-up
- Digital temperature control
- Available in 110 and 220 volts

ASTRA 2000

- Capable of producing up to 7 different drinks
- Automatic steam wand with self regulating temperature sensor, automatically turns off when milk reaches necessary temperature
- Vacuum valve prevents milk from entering the boiler
- Automatically cleans and rinses brew mechanism every 10 minutes
- Intelliprogram™ smart features
 - Programmable dosing
 - Pre-infusion capabilities
 - Management reporting and trouble-shooting capabilities
 - Programmable 'on/off' feature ensures machine powers up/down on time everyday
- Quiet internal motor with rotary-vane Procon pump
- Easy plumbed water connection & drain hook-up
- Digital temperature control
- Available in 110 and 220 volts
