

UNDERPASS

LED GROW LIGHT

Perfect for veg or flowering rooms, the patent pending UNDERPASS compliments existing down lighting by delivering full-spectrum light to the normally shaded mid- and lower canopy. Using three broad spectrum 3000K COB (chip on board) LED's create up to 440 PAR with a 3.5-1 ratio across 16' of light pipe! Incorporating our OLF (optical lighting film) with a narrow beam spread gives growers 180° of growing power.

MODEL NAME:	UNDERPASS
MAX PPF:	440 UMOL/SEC/M ²
PPF EFFICACY:	1.4838 UMOL/SEC/M ²
COVERAGE:	UP TO 16 LINEAR FT
INPUT VOLTAGE:	120/277 VAC
POWER CONSUMPTION:	235 W
POWER FACTOR:	0.98
INPUT CURRENT:	4A
LED EMITTER TYPE:	COB (CHIP ON BOARD) LED
LED COLOR SPECTRUM:	3000K FULL SPECTRUM
LED OPTICS:	CUSTOM 5° OPTICS
LED DRIVER:	MEANWELL 240W CV DRIVER
MOUNTING:	AIRCRAFT CABLE
WEIGHT:	ILLUMINATOR 20 LBS - PIPE 10LB PER 8' SECTION
OPERATING TEMP:	0°-40° C / 32°-104° F
OPERATING POSITION:	INTRA CANOPY
FINISH:	TEXTURED WHITE POWDER COAT
WARRANTY:	LIMITED 3 YEAR WARRANTY

ORDERING LOGIC:	MODEL	SIZE	CONTROLS
	UNDERPASS	8'	ON / OFF
		16'
