Innovative tool for making On Line cable testing more efficient

About the Product

The RFCT Test Box is a connection point that allows the user to connect a CableData Collectortm to permanently installed RFCT. The RFCT Test Box protects the connectors from weather and is lockable to prevent unauthorized access. The connectors are isolated from each other and ground to avoid noise pickup due to ground loops.*

* The RFCT Test box does not provide any isolation from High Voltages. Safe installation of the RFCT is required for safe operation.

Specifications	Order Number
RFCT Test Box - 1 BNC Connector	RFCTTB—1
RFCT Test Box - 3 BNC Connectors	RFCTTB—3
RFCT Test Box - 6 BNC Connectors	RFCTTB—6
RFCT Test Box - 9 BNC Connectors	RFCTTB—9
Outside Dimensions	L7.5" x W8.5" x D6" L19cm x W22cm x D15cm
Weight	3.5 lbs (1.6 kg)
Material	Polycarbonate
Operating Temperature	14^0F to 140^0F (-10^0C to 60^0C)
Humidity	0-95% RH Non-condensing

Benefits

- Provides the ability to permanently attach RFCT's to cable grounds to perform online test

- Allows customers with live work restrictions to test their cables.

- Provides easy connection of CableData Collector™

Features

- Permanently mounted RFCT connectors

- Various arrangements; 1 to 9 connectors in one box

- Weatherproof (IP66) rated, lockable enclosure

- Various mounting options

Safer, Stronger, Smarter Networks
