# 2412 SERIES

## A robust starter machine

Cuda's 2412 series of parts washers is an attractive entry-level top-load aqueous parts washer. At only 35 inches wide, the Cuda 2412 Series parts washer has a 250-lb. load capacity, and a 24 inch turntable diameter. While boasting Cuda Series durability, it has a 1/2 HP mechanical seal with flush tube style pump and an upper drive arm that rotates the turntable. The 115V models make the 2412 especially versatile for use anywhere in the shop.

### Aqueous parts washers clean faster and better without using harmful solvents!

Cuda automatic parts washers provide a safe and efficient solution to cleaning parts because they don't use harmful cleaning solvents to clean. Our automatic parts washers also provide a time-saving, easy parts cleaning solution for your staff allowing them to simultaneously clean parts while performing other tasks.

#### 1 Built-in Oil Skimmer

■ A built-in oil skimmer removes oil from cleaning solution in sump. Easily collect the oil by adding the optional oil drain container.

#### 2 Debris Screen

■ The removable debris screen prevents small particles and loose parts from entering the cleaning solution, ensuring blockage-free spray-nozzle operation.

#### 3 Customize and Accessorize

■ Customize your parts washer to your specific needs, like this pneumatic power brush, so washing becomes the easiest part of the work day.

#### 4 Detergents Engineered for Aqueous Parts Washers

■ Cuda detergents contain advanced formulas engineered specifically for use in aqueous parts washers and their specialized needs. Our advanced formulas include an exclusive multi-metal corrosion inhibitor for rust-protection.
