BELT DRIVE

Optional heavy-duty flat free tire kit available

50-ft wire-braided high pressure hose with swivel on one end

Trigger gun control with cool-grip and pressure wand

Hotsy DC oil-fired burner

Belt-drive pump - slower RPMs than a direct drive pump. Belt drive systems operate smoother, as the belts act as a dampener for vibrations and pressure spikes.

Lifting eyes let power equipment do the hoisting

Protective heavy-duty roll-cage chassis

Control box with adjustable temperature control lighted burner On/Off switch and hour meter

Hotsy-designed triplex belt-drive pump carries a 7-year warranty. Slower RPMs provide less wear and tear on the pump, and enables the pump to draw from water tanks.

Downstream detergent injection

8-gallon, removable fuel tank has fuel gauge in cap

Hotsy Belt Drive Gas Engine models are versatile; convert the standard trailer mount unit (above) into a portable unit with 2 wheels / 2 casters, a 4 wheel kit with flat-free tires or a skid unit for moving by forklift.
