Maintenance: Our products are made of polylactic acid with the addition of natural dye. For normal cleaning of the plastic surfaces, use a soft scrub brush (no metallic) to remove dirt particles between the lines and then wash with a micro fiber cloth (or other lint-free cloth) and water. If heavier cleaning is required, use a mild soap along with the cloth and water.

 $\hbox{Do not use solvents or abrasive cleaners. After cleaning, rinse with warm water and dry with a soft cloth.}$
