*The small imperfections that you will find in the innovative Unique ceramics are not to be considered defects but, on the contrary, they are part of the quality and uniqueness of the products resulting from an unprecedented and skilful blend of handmade and digital technologies.

The vase is available in three different finishes: Enamel, Crystalline and Gres. For the first two finishes (Enamel and Crystalline), the vase is waterproofed and can be used to contain liquids. With Gres finishes, the vase should not be used to hold water or other liquids as the ceramic may be porous and absorb the liquid. In such cases, the vase is intended for decorative purposes only and should not be used as a functional container.
