Customer/Contractor Guidelines

Pricing Guide:

Contractor discounts are based on the list value of the order and are then discounted accordingly.

Job Orders:

Under £5000 = 20% off list price

Over £5000 = 25% off list price

- It is NBT policy to supply through merchants. We can assist in finding a friendly merchant if you do not have any existing accounts.
- Merchants have the right to increase/decrease the discount at their discretion.
- Prices do not include VAT or carriage charges.
- Quotations from NBT are based on m2 for the actual board size (including the tongue for T&G boards) and not the actual coverage.
- Where full pallet or box quantities have to be ordered for non-stock products, these have been highlighted in red.

Technical advice:

NBT technical advisers are at hand to provide you with guidance and training. Our advisers can also take part in conference calls in order to provide 'hands on' training with a customer present. It is our aim to empower you and your colleagues to become competent Pavatex woodfibre specialists.

Deliveries:

- For goods in stock there is a lead time of 48 - 72 hours from the receipt of order at NBT.
- Lead time is usually a maximum of 2 weeks for non stock items.
- Contractors must provide appropriate off-loading facilities and ensure adequate access (HGV's assumed)
- Double handling and any lifting using a hiab, lifting bands or similar should be avoided in order to prevent damage to the products.
- All products to be stored in a dry place, renders and paints not to be exposed to frost.
- It is the contractor's responsibility to check specifications and quantities.
- Datasheets with coverage and consumption are available on the products section of NBT's website
- NBT provides specification and installation support for all products listed.

Damages & shortages:

All damages and shortages must be reported to you immediately by your customer. The delivery note must be signed for as 'damaged' or 'short delivered'. Photographic evidence must be sent to you by your customer within 24 hours.

Returns:

- A returns request form must be completed by the customer & sent to the merchant prior to review by NBT.
- There is no sale-or-return policy in place.
- Goods will only be considered for credit if they are received by NBT in original packaging on original pallets and in a fully saleable condition.
- It is the Customer's responsibility to ensure that goods are returned to NBT in the above condition and at the Customer's cost.
- Customer assumes all risk of damage during transit and should take all necessary steps to prevent its occurrence.
- We recommend providing photographic evidence of board condition to NBT prior to shipping.
- Damaged goods will not be accepted; whether damaged on site or in transit back to NBT.
- Renders and plasters will not be accepted for return.
- Any goods returned which are not stated above or which have not been authorised for return will not be credited
- Disposal of damaged goods may be subject to a charge
