

**FISHBONE**  
MARGARET RIVER

## **BLACK LABEL ROSÉ**

### **2023 MARGARET RIVER WA**

Fishbone is a boutique family run and owned vineyard purchased by the Sorgiovanni family in 1999. Located in the world-renowned Margaret River wine region in Wilyabrup, the property features gentle sloping topography bounded by the Wilyabrup Brook in the centre of Margaret River's 'golden triangle'. The 165-acre property, which was originally a dairy farm, includes some traditional varieties such as Cabernet and Chardonnay, and some lesser known alternatives such as Tempranillo, Malbec, Vermentino and Pinot Noir.

#### **Tasting Notes**

This medium bodied, dry rose presents an array of floral scents and red fruits with a pale pink core to the rim. The lifted perfume of wild strawberries and juniper berries follow with a dry, creamy texture, balance out with a soft acidity on the palate.

#### **Winemaking**

Handpicked Tempranillo off the Fishbone Estate was whole bunched pressed and cool fermented in stainless steel and seasoned oak.

#### **Viticulture Notes**

Wine is hand-picked and sorted in the absence of disease and pests. The 2022 vintage was a very good vintage throughout Maragert River, with good rainfall and abundant Marri Blossom presence, providing no

significant bird damage late in the growing season..

#### **Quick Notes**

Vintage: 2023
