

FISHBONE
MARGARET RIVER

BLACK LABEL VERMENTINO

2023 MARGARET RIVER WA

Fishbone is a boutique family run and owned vineyard purchased by the Sorgiovanni family in 1999. Located in the world-renowned Margaret River wine region in Wilyabrup, the property features gentle sloping topography bounded by the Wilyabrup Brook in the centre of Margaret River's 'golden triangle'. The 165-acre property, which was originally a dairy farm, includes some traditional varieties such as Cabernet and Chardonnay, and some lesser known alternatives such as Tempranillo, Malbec, Vermentino and Pinot Noir.

Tasting Notes

Pale straw to the core with a pale green edge with a dry palate of citrus and white fruits with a delicate long finish and a lifted perfume.

Winemaking

Handpicked Vermentino off the Fishbone Estate was crushed then allowed 24-hour juice on skin contact before pressing and fermenting.

Viticulture Notes

Wine is hand-picked and sorted in the absence of disease and pests. The 2022 vintage was a very good vintage throughout Maragert River, with good rainfall and abundant Marri Blossom presence, providing no significant bird damage late in the growing season..

Quick Notes
