GENERAL CHARACTERISTICS

The **EAGLE FEED ROLL REPLACEMENT TIPS** are made from a High Quality Chrome Alloy that will give you excellent wear resistant qualities and are to be used on log turners and barker feed rolls.

The **EAGLE LOG SAVER TIPS** are made from a High quality Chrome Alloy that will give you excellent wear resistant qualities and are to be used on debarker feed rolls, tree processor feed rolls and log turners. These Log Saver Tips are designed to prevent severe piercing and penetration of the log as it moves through the rolls into various processors. This design is very important when processing small logs or hardwood logs.

PACKAGING

The **EAGLE FEED ROLL REPLACEMENT TIPS** and **LOG SAVER TIPS** are packaged in lots of 100 pieces per box.
