LIFESTYLE | FASHION | LOUNGEWEAR

Heaven On Earth Day Spa is growing and offers you another escape- hand picked pieces you can shop in Aspen to make your everyday experience feel and look like a getaway.

This collection combines vacation, street, and at-home style with soft, easy, and comfortable pieces that will be your go-to without sacrificing style – all in one store.

It's self-care you can wear.

BOHO STYLE DRESSES

At its core, the bohemian chic style is about being free – *in mind, body, and soul*. A laid-back, expressive essence characterizes it.

This free-spirited, boho style features unstructured silhouettes, natural fabrics, and neutral and warm shades for a fashion flair. The best part? Boho style is all about mixing these components with comfort. Comfy *and* stylish.

SOPHISTICATED LOUNGEWEAR

Wearing loungewear lets you prepare for whatever the day holds. It keeps you as comfy as your pajamas, but you get to look a bit more stylish and put together.

COOL WICKING SLEEPWEAR

Stay cool day or night with the Dagsmejan *Stay Cool* sleepwear. This line is amazing for summer when the temperatures outside are hot, because it provides an instant cooling feeling that lasts.

Don't just wear these as your pajamas; they look so good, you won't just be sleeping in them, you'll be wearing them all day long.

WEARABLE INTENTION NECKLACES

What's your word?
Let your necklace speak for you! Charm necklaces that say - *Aspen, exhale, mama love* - what will your word be?

DINNER PARTY

There's always a dinner party to go to, and Heaven On Earth has the perfect, unique hostess gifts!

I thoughtfully selected the best brands and collections, like a selection of *luxury Votivo candles, hand soaps, and other home fragrances.*

LOVE IS FUR-EVER

Don't you just wish you could tell your *cat or dog* how long you'll be gone or find out why they are behaving a certain way?

Heaven on Earth has books that guide you to meditate with your *dog and cat*, so now you can.
