PRODUCT FAQ'S:

Q1: Is Express Detail Spray safe for fresh paint?

A1: Yes, Express Detail Spray does create a breathable film that will help protect the paint but will not seal freshly painted surface.

Q2: Can I use Express Detail Spray on multiple surfaces?

A2: Express Detail Spray is the perfect product to clean multiple types of surfaces and touch up dirty areas.

Q3: Will Express Detail Spray work as a waterless boat wash?

A3: Yes. The product works very well as a waterless boat wash and is a perfect touch up for missed areas and multiple surfaces.

Q4: Can I use Express Detail Spray during buffing?

A4: Yes, Express Detail Spray has many uses during the buffing process. It can be used to lubricate buffing pads prior to buffing, it can be used to extend the buffing time for compounds and polishes, and it can be used to aid in clean-up after buffing is completed.
