

## **Nuvoe Pod Safety Manual**

### **Warnings & Cautions**

Use the Product according to the instructions only, as incorrect operation of the Product may cause injury. Please read and understand all Warnings & Cautions, and do not use the Product in any other manner other than instructed on the Product packaging or in the user manual.

Quick Start Guide available at [mynuvoe.com/support](https://mynuvoe.com/support)

*Please read and understand the following prior to operating the Nuvoe Pod and the Magnetic Anchor (or the "Product").  
Always follow the instructions when using the Product.  
Improper operation of the Product may cause injury.*

**Important: This Product is not suitable or intended for use by children**

This Product contains small parts and may be hazardous to small children, especially children under 5 years of age. Keep this Product and any dangerous equipment including those with batteries or magnets out of the reach of small children.

**Caution: Ultraviolet radiation**

Do not look directly at the ultraviolet light. Direct ultraviolet light can irritate eyes and skin or may otherwise be potentially harmful. Press the button at any point to stop ultraviolet radiation.

**Caution: Neodymium magnets**

The Product contains powerful magnets and should be handled with care. Where a Magnetic Anchor is included with the Product, it should be affixed directly to a refillable water bottle to prevent injury to yourself, others or damage to itself or property.

**Caution: Glass**

This Product contains glass. Do not use the Product if the glass lenses are damaged or cracked.

- 
- The Product is to be used inside an enclosed vessel such as a water bottle, pitcher or water container (or "Enclosed Container"). Do not turn on or operate the Nuvoe Pod when it is outside an Enclosed Container. It is recommended to be used in non-transparent containers.
  - Ensure the lid or cap of the Enclosed Container is closed before activating a purification cycle.
  - Do not remove the Nuvoe Pod during a purifying cycle. A purifying cycle can be cancelled at any time by pressing the button on the Nuvoe Pod. This will stop any purification cycle and turn off the ultraviolet radiation.
  - Never tamper with or modify the Product. Do not attempt to repair the Product. If the Product malfunctions or fails to perform as expected, stop use immediately.

- The Product operates on high electrical power. Do not open the Product, modify or touch internal circuitry as this can lead to high voltage shock. Removal or tampering with the electronic circuit board may cause injury or damage to the user or Product and will void all warranties.
- Clean the outside of the Product with a clean, moist cloth. Never use any strong cleaning sprays or similar chemicals on the Product. Do not firmly press on any part of the Product.
- Before using the charger, dry the outside of the Product with a clean, dry cloth.
- To prevent danger or shock hazard, do not use the charger near water, for example, near a bathtub, washbowl, kitchen sink, laundry tub, or swimming pool.
- When charging, only connect the adapter as described in the Product Instructions or User Manual. Charging should be performed by an adult. Do not charge with any other USB cable other than the USB cable provided with the Product. USB cable should be connected to a 5V USB port on a desktop or notebook computer.
- Do not use as a light source.
- Do not expose the Product to temperatures below 0°C/32°F or above 35°C/90°F. Do not use in hot beverages.
- As with any water treatment system, you should always have a backup method available.
- Do not allow impact to the Product. If the Product is chipped, cracked or damaged, do not operate.
- Always use clear, fresh smelling water for drinking. The Nuvoe Pod does not filter particulates.
- While carefully controlled microbiological testing has been conducted, the use of the Product by consumers in the field may produce different results that vary from laboratory data.

## Disposal

The Nuvoe Pod contains a rechargeable lithium-ion battery and must be disposed of correctly. Do not remove the battery. Dispose of the Product containing the battery in accordance with applicable law. Do not dispose of in fire or allow any exposure or contact with fire. Contact your local town or city officials for information regarding the safe disposal of the Product containing the battery.

## Disclaimer

Your use of the product is at your own risk. It is understood that you are voluntarily using it with full knowledge that there are inherent and/or associated risks in doing so, and you assume and accept any and all risks that maybe associated with or that arise out of possession or use of the product, including but not limited to, the risk of property damage or loss, and/or serious injury (including shock or death).
