

The Match

We know how difficult it is to match fabrics with notions. All laptops and monitors show color differently. We hope this shade match color card will help. We will add images to this chart as we add or change our batik cotton collection and notions!

The images below are alphabetical by SewBatik Fabric COLOR name printed in the lower left corner of each image. The Shade Match images below are only suggested color matches of our batik cotton and the ByAnnie products. We placed 24" zippers on each fabric. We include an additional product cross reference on page 3.

SewBatik's ByAnnie Notion Inventory

24" Zipper	30" Zipper	Fold-Over Elastic	Mesh
