

Recommended Parts to Accompany Your Shackle Reversal

The following parts list are intended for those needing help with finding the right parts to accompany their shackle reversal. These parts lists are intended for **V-Code 99-04 56" (2 leaf) factory springs (unless noted)** that are not clapped out with sagged bushings. The kit possibilities are endless when you start coupling a leveling or lift spring to a shackle reversal, we wrote these lists below as a guideline.

If you have specific questions and want an emailed recommended list to suit your specific needs please email us at:
