Step 1:

On the ground, bolt the bottom rail to the two end sections using the large bolts, washers, and nylon locking nuts.

Step 2:

Slide bottom of parts from step one over tubes on base plate and secure with the small bolts. Holes in base plate can be used to secure the rack to concrete or wood.

Step 3:

Install short brace between the parts from step one using the holes toward the top of the rack. Use the large bolts,
