EFFECTIVE FORMAT

NATURAL INGREDIENTS

Ideal for all skin types, including dry and sensitive skin, its simple formula contains only natural and essential ingredients for skin hydration, avoiding the risk of irritation or allergy. The Sculpt & Glow Bar is rich in Vitamins A, E and F with antioxidant and soothing properties. It diffuses light, reflects UVA and UVB rays, and protects your skin microbiota. Sustainably sourced mica leaves a light satiny-smooth glow to your skin, helping to even the complexion and make it visibly radiant.

BETTER FOR THE PLANET

The Sculpt & Glow Bar's solid form means there is no need for superfluous packaging. The aluminum slide box doubles as a travel case for the bar and can be used again with our refills.

DIRECTIONS

Warm the bar with your hands. Once it has begun to melt, rub it directly onto your skin or massage it between your hands, applying the excess. It layers onto any Ember Wellness facial oil or hydrosol when your skin needs extra hydration.
