

THE FRIENDLY TRIO® + NAG

PART OF THE
ESP PROGRAM*

**CONTRIBUTES TO
HEALTHY INTESTINAL
FLORA. ENHANCED WITH
N-ACETYLGLUCOSAMINE,
FOR INTESTINAL
SUPPORT AND REPAIR.**

The Enerex Advantage

- > Enhances growth of friendly bacteria, while inhibiting growth of pathogenic bacteria
- > Alleviates flatulence, and may reduce diarrhea and constipation
- > Helps reduce cholesterol and production of toxic/carcinogenic compounds in the intestinal tract
- > Increases immunity and bacterial resistance
- > NAG is an important co-factor in maintaining gastrointestinal health
- > Produces vitamins and other nutritional factors
- > No refrigeration required/stable at room temperature: perfect travel companion
- > FOS is proven to increase friendly bacteria from 5 to 10 times

80040293

Each capsule of **The Friendly Trio® + NAG** contains 1 billion live cultures of the optimum friendly bacteria for balanced intestinal flora. The Friendly Trio® are derived from living micro-organisms found in the human body, and perfected through decades of laboratory culturing. Used in over 30,000 hospitals and clinics worldwide, these specially cultured human strains are carefully processed to retain viability at room temperature.

NAG is a vital component of the membranes that line the digestive tract. It helps support the immune system, and is a ready-made material for tissue repair. Research shows NAG to be effective in the treatment of inflammatory bowel conditions such as Crohn's Disease.
