The Enerex Advantage

- For relief of osteoarthritic and other joint degeneration & inflammation
- Glucosamine is a component of cartilage matrix in joint tissue – supplements could supply necessary nutrients to rebuild/repair cartilage
- Benefits of Glucosamine are backed by over 300 scientific studies
- Produced from corn, not chemically extracted from lobster shell = suitable for vegans & vegetarians; safe for crustacean & shellfish allergies
- Equally effective in therapeutic action compared to animal sources
- Higher dosage 1500 mg, yet easy to take in One-A-Day tablet
- Used to treat arthritis by doctors in Europe for over 20 years; doctors & veterinarians in US beginning to prescribe it
- It is tasteless & water-soluble, readily absorbed from intestines; stays in the blood for several hours
- Used in traditional Ayurvedic medicine for centuries
- Free of negative side effects & contraindications (however, do not take at higher than recommended dosage)
- Has low molecular weight that is easy to assimilate & is easily excreted
- Canadian statistics: almost 16% of population 20+ years old affected by arthritis – a dramatic increase
- Joint pain susceptibility due to: heredity, past & current injuries, metabolism, lifestyle, amount of acidity in body

VEGAN GLUCOSAMINE

BENEFITS

- Helps to repair/rebuild cartilage; protects joints from deterioration & injury by creating a lubricating barrier
- Research: knee osteoarthritis patients receiving 1500 mg of Glucosamine (same dosage as Enerex Glucosamine) showed no further cartilage loss, and pain & function improved
- Promotes non-analgesic (not by numbing symptoms) pain relief by supporting tissue
- Maintains ligaments/tendons/vertebrae & may increase longevity of musculoskeletal system
- Helps to increase mobility & flexibility at all ages
- Anti-inflammatory: may reduce inflammatory markers including interleukin-1 & prostaglandin E2 & slow production of catabolic enzymes (that break down substances)
- Shown in studies to reduce time required for sports injury healing & surgery recovery
- May aid skin health because it helps increase production of hyaluronic acid
