MEMORIA

HELPS TO ENHANCE COGNITIVE
FUNCTION, MEMORY & MAINTAIN
OPTIMUM BRAIN HEALTH

The Enerex Advantage

- > Two patented ingredients: Vinpocetine and Bacopa
- > Phosphatidylserine for brain health; cognitive improvements & recall
- > Third party tested for impurities, including heavy metals
- > Contains five trusted and potent factors to help maintain or improve your brain's cognitive functions
- > Vinpocetine has been shown to significantly increase blood flow to the brain, improving cognitive performance and short-term memory loss
- > Ginkgo Biloba has been proven to increase cognitive function by enhancing the blood flow to the brain
- > Phosphatidylserine (PS) helps the brain respond to stress and promotes neural communication
- > Bacopa contains bacoside compounds that improve mental clarity and learning ability
- > Green Tea extract is rich in powerful antioxidants

80036985

Enerex MEMORIA contains a brain-boosting compound of complementary nutrients and botanicals providing natural co-factors to improve brain performance, attention, and memory.

As we age, our memory skills and cognitive abilities tend to diminish. Chronic stress and oxidative stress also have a detrimental impact on our brain's functions. Many of us notice that we forget names or where we placed our keys. While some people expect a certain amount of cognitive deterioration, many don't realize that the aging process has very little to do with memory loss or other cognitive disorders. Instead, many cognitive issues stem from not getting the right nutrients, often compounded by poor lifestyle choices.
