Osteoporosis is a serious concern for many, especially for post menopausal women with one in four women affected. Calcium supplementation can reduce the potential of the condition. For the body to derive maximum benefit, supplements must be formulated with the right ingredients - in the ideal proportions.

Enerex Osteo CAL:MAG contains the proven and preferred 1 to 1 ratio of calcium and magnesium, along with essential co-factors of silica from bamboo, boron, and vitamins D3 and K2, in an organic green food base of kale. The result is a formula which effectively builds and maintains bone health and fights the onset of osteoporosis.
