Good health is upheld by a healthy immune system. **Enerex Reishi Defense** helps provide the necessary support.

This specially designed multi-dimensional formula of well-researched ingredients helps deliver the extra boost when needed for optimal health, especially in cold and flu season or when your immune system is challenged.

Red Reishi helps tone the body helping increase energy and resistance to stresses while invigorating our defenses. Together with Vitamin C to act upon invaders and Citrus Bioflavonoids to support Vitamin C and our immune response, Vitamin D helps keep our immune defenses on-guard and active making this four-pillar formula a formidable ally.

REISHI DEFENSE

RED REISHI'S QUALITY IS DEPENDENT UPON FACTORS INCLUDING:

- growing conditions such as temperature, light & oxygen
- surface material the mushroom grows on & the maturity when picked
- amount of polysaccharides (therapeutic part of mushroom) in Reiki mushrooms
- processing: high quality supplements require over 200 pounds of fresh mushrooms per 1 pound of dehydrated product; mushrooms must only be low-temperature dried before milling

Enerex Reishi Defense uses only top quality whole plant Reishi Mushroom at a ratio of 50:1, 15% Polysaccharides, 2500 mg DHE for its increased benefits.

Primary Product Use — Colds/Flu: Being healthy does not mean you don't contract a virus when exposed; it's in how well you deal with it & how quickly you build immunity to it that reveals your health. Over 90% of the North American population contracts viruses every year. Reishi & Vitamin C have been proven to hasten recovery by strengthening the immune system.
