

Choose from our two measuring techniques to help you pick the right ring. For accuracy, print the PDF to 100% scale. Test if the page has printed correctly by placing a credit card in the area indicated. If it matches, you are ready to go.

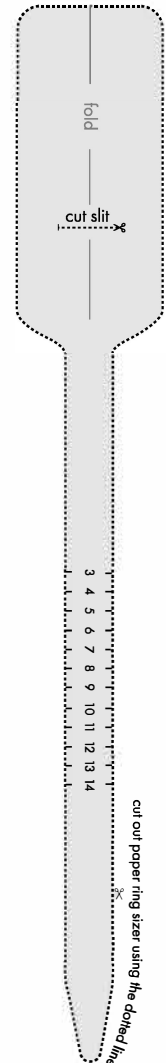

Don't worry if you choose the wrong size! We gladly accept exchanges or returns of any Of Elven Make rings. If you need help, contact us at hello@ofelvenmake.com.

The paper test

1. Cut out the paper ring sizer.
2. Fold along the "fold" line and cut a slit the length of the "cut slit" line.
3. Slip the pointed end through the slit, creating a circle.
4. Wrap the paper around your finger where you will wear the ring.
5. Position the tab so your thumb can hold it. Then pull the paper until contact is made. Aim for a comfortable, slightly snug, fit.
6. Read the measurement from the paper.

paper ring sizer

The ring test

1. Find a ring that you or your loved one currently wears.
2. Place the ring on top of each circle until you find a perfect match.
3. You'll know you have a perfect match when the inside of the ring just barely touches all sides of the circle.
