

ALEX RUSSELL WINES

alejandro

ALTERNATIVE VARIETAL WINES

SAPERAVI

100% Saperavi

COLOUR

Dark purple to black.

NOSE

Mulberry, dark fruits, fennel and spice combined to produce a complex aromatic wine that resembles a rich, dark fruit cake.

PALATE

Rich, tannic, full bodied with lots of French and American oak to compliment the fruits and spices

WINEMAKING

The soil is unique to the Murray River system and is known technically as calcareous earth, ranging from brown to red-brown loamy sand, sandy loam or loam. The surface is neutral to moderately alkaline with increasing alkalinity at depth as textures become more clayey and calcareous. Overall, the soil supports the vigorous growth and high grape yields.

FOOD PAIRING

Rich meat dishes or on the couch with dark rum and raisin chocolate.

VINTAGE NOTES

The 2020 Vintage had hot and dry conditions, allowing fruit to fully ripen, resulting in a wine that is full flavoured, full bodied and full of colour.
