

SAFETY DATA SHEET

According to 1907/2006/EC, Article 31 Revision Date: 24/01/2023

Print Date: 24/01/2023

1. IDENTIFICATION OF THE MATERIAL AND SUPPLIER

Product Name:	Natures Organics Fruits Conditioner Daily Restore Coconut & Lime 500 mL		
Other Name(s):	FM170510	FCC	9310692 039259
Recommended Use:	Hair conditioner		
Supplier:	Natures Organics Pty Ltd		
Address:	31 Cornhill Street Ferntree Gully VIC 3156 Australia		
Telephone:	(+613) 9759 0300		
Emergency Telephone:	(+613) 9759 0300		

2. HAZARDS IDENTIFICATION

Version No: 5

	GHS Classification of the substance or mixture:This substance / preparation is NOT classification and Labelling Non-hazardousClassification of the substance or mixture:Non-hazardousGHS label elementsImage: Classification and Labelling	
Hazard pictograms:-Signal word:-Hazard statements:-Precautionary statements:-	Signal word: - Hazard statements: - Precautionary -	

3. COMPOSITION / INFORMATION ON INGREDIENTS

Chemical Name	CAS Number	Proportion (%)
Cetrimonium Chloride	112-02-7	< 1%
Phenoxyethanol	122-99-6	< 1%
Sodium Benzoate	532-32-1	< 1%
Cyclopentasiloxane	541-02-6	< 1%
Ingredients determined not to be hazardous	-	Balance to 100%

ABN 51 052 221 413 **ACN** 052 221 413 The authorities of the European Community have selected 26 fragrance ingredients which are considered to be potential allergens. If any of these 26 fragrance ingredients are determined to be present at a level of 10 ppm (= 0.001%) or more in a leave-on personal care product or at a level of 100 ppm (= 0.01%) or more in a rinse-off personal care product or detergent product, then they must be included as an ingredient on the product label if the product is to be sold in the European Community. Whilst Australian legislation and regulations for personal care products and detergent products does not require such ingredient disclosure, it is provided below in the interests of transparency and to assist consumers in making an informed choice.

Fragrance ingredients which are considered to be potential allergens present in the product at a level of 100 ppm (=0.01%) or more

Limonene (d- and I-Limonene)

CAS 5989-27-5 0.031%

4. FIRST AID MEASURES

Ingestion:	Rinse mouth out with water. Do not induce vomiting. Give plenty of water to drink. If irritation develops and persists, seek medical advice or contact the Poisons Information Centre (phone Australia 13 1126, NZ 0800 764 766).
Eye:	Immediately hold eyes open and flush with water for at least 15 minutes. If irritation persists, seek medical advice.
Skin:	Wipe off excess with tissue or towel. Remove contaminated clothing. Wash well with water. Seek medical advice if irritation occurs.
Inhaled:	Not applicable.
First Aid Facilities:	Workcover recommended first aid facilities appropriate to the size of the workplace.
Advice to Doctor:	Treat symptomatically.

5. FIRE FIGHTING MEASURES

Extinguishing media:	Water spray or fog. Foam, dry chemical powder or carbon dioxide extinguishers.
Hazards from combustion products:	This mixture is not combustible under normal conditions. However, it will break down under fire conditions and the hydrocarbon component will burn. In a large fire, heating may produce toxic fumes containing hydrogen chloride, carbon monoxide, carbon dioxide and nitrogen oxides.
Personal protective equipment: Hazchem code:	Fire fighters to wear self-contained breathing apparatus and suitable protective clothing. None assigned.

6. ACCIDENTAL RELEASE MEASURES

Emergency procedures: Slippery when spilt. Avoid accidents, clean up immediately. Wear appropriate protective equipment during clean-up.
Methods and materials for containment and clean up: Contain spill to prevent contamination of drains / waterways. Use absorbent material such as sand or earth. Collect and seal in properly labelled containers for disposal in accordance with local regulations. Wash area down with water to remove residual material.

7. HANDLING AND STORAGE

Precautions for safe handling:	Avoid eye contact. Follow product label directions. Repeated or prolonged skin contact should be avoided.
Conditions for safe storage:	Store in original containers in a cool, dry, well-ventilated area and out of direct sunlight. Recommended storage temperature range is between 0°C and 30°C. Store away from foodstuffs and foodstuff containers.
Storage incompatibility:	None known.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance	Viscous off white or cream coloured emulsion
Odour	Characteristic coconut and lime fragrance
pH (neat)	Approximately 4.3
Vapour Pressure (kPa)	Not available
Boiling Point (°C)	Approximately 100°C (water)
Melting Point (°C)	Not available
Solubility in Water	Readily dispersible
Specific Gravity	Approximately 0.979 @ 20°C
Flash Point (°C)	Not applicable
Flammability Limits	Not flammable
Ignition Temperature	Not available
Specific Heat Value	Not available
VOC Content	< 1%
Evaporation Rate	Not available
Viscosity (cps)	Approximately 30,000 cps @ 20°C
Volatile Component	Approximately 94%

Natures Organics Fruits Conditioner Daily Restore Coconut & Lime 500 mL

Saturated Vapour Pressure	Not available
Decomposition Temperature	Not available

10. STABILITY AND REACTIVITY

Chemical stability:	Stable under normal conditions.
Conditions to avoid:	Excessive heat and direct sunlight.
Incompatible materials:	None known.
Hazardous decomposition products:	Hydrogen chloride, carbon monoxide, carbon dioxide and nitrogen oxides.
Hazardous reactions:	None known.

11. TOXICOLOGICAL INFORMATION

Potential health effects Acute	
Swallowed	The oral ATE (Acute Toxicity Calculation) has been calculated to be > 5000 mg/kg, so the product is not considered to be toxic via ingestion according to GHS criteria. May cause irritation if directly introduced to the mouth, throat and stomach. Symptoms may include vomiting, abdominal pain, diarrhoea and nausea.
Eye	The eye irritation Category 2/2A score has been determined to be < 1, so the product is not considered by GHS to cause Category 2/2A eye irritation. May cause mild transient irritation to the eyes, including redness and stinging.
Skin	The dermal ATE (Acute Toxicity Calculation) has been calculated to be > 5000 mg/kg, so the product is not considered to be acutely toxic (category 4) via skin contact according to GHS criteria. The skin irritation Category 2 score has been determined to be < 1, so the product is considered by GHS not to be a Category 2 skin irritant. This product is not classified to be a skin sensitiser. Repeated or prolonged skin contact may lead to mild irritation.
Inhaled	The inhalation ATE (Acute Toxicity Calculation) has been calculated to be > 20 mg/L, so the product is not considered to be toxic via inhalation according to GHS criteria. Not normally a hazard due to the non-volatile nature of the product.
Chronic	This product contains no ingredients considered by GHS to be carcinogenic, mutagenic, toxic to reproduction or which may cause damage to organs through prolonged or repeated exposure.

12. ECOLOGICAL INFORMATION

Ecotoxicity:	have been ecotoxicities Hazardous to Hazardous to Note that the	has not been tested for ecotoxicity, but the below statements derived from a summation of all substances with known in the product based on the GHS criteria: the aquatic environment - acute: Category 3 the aquatic environment - chronic: Category 3 ese hazard categories are exempt from classification under the Work Australia Regulations.	
	H412	Harmful to aquatic life with long lasting effects.	
	P273	Avoid release to the environment.	
	P501	Dispose of contents in accordance with local regulations.	

Persistence and Degradability	The surfactants contained in this product are classified as readily biodegradable when tested according to OECD methods. Dimethicone degrades in soil abiotically to form smaller molecules. These in turn are either biodegraded in soil or volatilized into the air where they are broken down in the presence of sunlight. Under appropriate conditions, the ultimate degradation products are inorganic silica, carbon dioxide and water vapour. Due to the very low water solubility of Dimethicone, standard OECD protocols for ready and inherent biodegradability are not suitable for measuring its biodegradability. Dimethicone is removed > 80% during the sewage treatment process. Decamethylcyclopentasiloxane (D5) meets the current REACh Annex XIII criteria for vPvB. However, D5 does not behave similarly to known PBT/vPvB substances. The weight of scientific evidence from field studies shows that D5 is not biomagnifying in aquatic and terrestrial food webs. No information available. Avoid contaminating waterways.	
Mobility Other		

13. DISPOSAL CONSIDERATIONS

Waste disposal: Dispose of by incineration or burial in an approved landfill in accordance with Commonwealth, State and Local Government regulations.

14. TRANSPORT INFORMATION

Not classified as Dangerous Goods according to the Australian Code for the Transport of Dangerous Goods by Road and Rail.

UN Number:	None
Proper Shipping Name:	None
Dangerous Goods Class:	None
Subsidiary Risk:	None
Pack Group:	None
Hazchem Code:	None
Marine Pollutant:	No
Special precautions for	None
user:	

15. REGULATORY INFORMATION

None.

Poisons Schedule:

All components of this product are listed on the Australian Inventory of Chemical Substances (AICS).

16. OTHER INFORMATION

For Emergencies:	Australian Poisons Information Centre – phone 13 1126 New Zealand Poisons Information Centre – phone 0800 764 766
Issued By:	Greg Bryant Chief Operations Chemist
Issue Date:	24/01/2023
Version No.:	5
Supersedes:	Version No. 4 dated 21/12/2018
Reason for revision:	Revisions to Sections 1, 2, 3, 7, 8, 9, 11, 12 and 16 including update to GHS 7 th Edition.

This SDS summarises to our best knowledge the health and safety hazard information for the product and general guidance on how to safely handle the product in the workplace. Each user must, prior to usage, assess and control the risks arising from its use of the product in the workplace, including in conjunction with other products. This information is presented in good faith and is based on current data considered to be correct to the best of our knowledge.

End of document.
