

K-Med® Wipes

with Chlorhexidine Gluconate 2% and Ketoconazole 1%

K-MED® WIPES with Chlorhexidine Gluconate 2% and Ketoconazole 1% contain an antiseptic (antibacterial and antifungal) solution for the topical management of skin conditions that are responsive to chlorhexidine and ketoconazole.

K-MED® Wipes can be used for the antiseptic cleansing of facial folds, wrinkles, paws, between toes, as well as underarm and groin areas.

DIRECTIONS FOR USE:

Thoroughly wipe affected area with a pad 1 to 3 times per day, or as directed by your veterinarian. Do not allow the animal to lick the treated areas until dry to prevent ingestion. Wipes should be used for one application only; do not reuse. Avoid use on open wounds, cuts, or raw areas (use K-Med® Flush instead).

PRECAUTIONS:

Avoid contact with eyes or mucous membranes. If eye contact occurs, rinse thoroughly with water and consult a veterinarian.

CAUTIONS:

If undue skin irritation develops or increases, discontinue use and consult a veterinarian.

ACTIVE INGREDIENTS:

Chlorhexidine Gluconate 2%, Ketoconazole 1%.

INACTIVE INGREDIENTS:

Water, Propylene Glycol, Nonoxynol-9, Lactic Acid, Polysorbate 20, Aloe Barbadensis (Aloe) Leaf Juice, Glycerine, Fragrance, Methylisothiazolinone.

 A white caduceus symbol, consisting of a staff with two snakes entwined around it and wings at the top, is positioned to the left of the text.
