Connective Tissue, and Flexibility

NASC certified
for compliance with
stringent supplement
quality standards

21.16 oz (600 g) Powder / 600 Capsules

1 Scoop (1 tablespoon) / 4 Capsules Contain:

Glucosamine Sulfate (aminomonosaccharide)	1000 mg
MSM (methylsulfonylmethane).	500 mg
Sea Cucumber (pseudo-colochirus axiologus)	300 mg
Vitamin C (ascorbic acid)	10 mg

Recommended Usage (Powder):

1 heaping scoop for very large dogs (over 100 lbs.), 1 level scoop for large dogs (75-100 lbs.), 3/4 scoop for medium dogs (50-75 lbs.), 1/4 to 1/2 scoop for small dogs and cats up to 50 lbs.. Dosage may be doubled for the initial 4-8 weeks of treatment for a more rapid response.

Recommended Usage (Capsules):

6 capsules for very large dogs (over 100 lbs.), 4 capsules for large dogs (75-100 lbs.), 2 capsules for medium-sized dogs (50-75 lbs.), 1 capsule for small dogs (up to 50 lbs.).

MegaFlex is comprised of important nutrients for dogs and cats to complement their overall diet. MegaFlex is a high potency formula designed to nourish and support connective tissue for healthy, flexible joints and comfortable movement. The formula features glucosamine sulfate, a critical precursor of synovial fluid.

Glucosamine sulfate has a low molecular weight allowing it to be well absorbed orally. Studies have found that glucosamine sulfate has a tropism for articular cartilage in the dog.
