

# MEGA SporeBiotic™

MegaSporeBiotic™ is one of the most recognized names in the probiotic industry. It is Microbiome Labs' flagship probiotic product—a pioneering and trend-setting all-spore formula designed to support gut microbiome reconditioning.

MegaSporeBiotic™ is a 100% spore-based, broad-spectrum probiotic clinically tested to support and maintain gut microbial diversity, healthy levels of commensal gut bacterial species, and intestinal barrier function. This unique blend of spore-based probiotic species is designed to maintain survivability, efficacy, and potency throughout the digestive process. Boasting a shelf-stable, MegaSporeBiotic™ doesn't require refrigeration or a high colony-forming unit (CFU) count to be effective—unlike non-spore-forming strains (*Bifidobacterium* or *Lactobacillus spp.*), which are typically vulnerable to destruction at room temperature and in the digestive tract.\*\*

## MegaSporeBiotic™ Benefits & Features\*\*

- Supports gut microbial diversity
- Supports healthy gut barrier and immune function\*\*
- Maintains levels of key, health-supportive, commensal gut bacteria
- Unique spore-based *Bacillus* probiotic blend supports gut reconditioning
- Designed to maintain efficacy, potency, and 99.99% survivability throughout the digestive process
- Supports keystone bacterial species that produce valuable short-chain fatty acid (SCFAs) metabolites, including butyrate
- Researched-backed by multiple clinical studies
- Shelf-stable, no refrigeration needed

## MegaSporeBiotic™: The Pioneering Spore-Based Probiotic

The gut microbiome is a dynamic ecosystem easily disrupted by environmental and lifestyle factors. When it is imbalanced—in a state of "dysbiosis"—localized digestive discomforts, gut health challenges, and body-wide issues may occur. An imbalanced microbial environment can negatively impact clients' daily lives. Microbiome Labs designed MegaSporeBiotic™ to support reconditioning an imbalanced microbial gut environment.

MegaSporeBiotic™ contains five *Bacillus* spore-forming bacterial strains. Spore-formers surround themselves with a protective coat, so they are naturally designed to navigate digestion with 99.99% survivability. They arrive in the gut, transition from spore to active form, and provide practical reconditioning support. MegaSporeBiotic™ can support increased microbial diversity, maintain healthy gut barrier and immune function, and support keystone bacterial species that produce valuable short-chain fatty acid (SCFAs) metabolites, including butyrate. SCFAs support many diverse physiological functions necessary for optimal health and well-being.

MegaSporeBiotic™ is the first, truly innovative, multi-spore-based probiotic. Supported by extensive clinical validation and developed to fill a massive therapeutic practice gap, MegaSporeBiotic™ is backed by over 9 published studies, with multiple, ongoing studies.\*\*

## Total Gut Restoration | At A Glance

The three fundamental aspects of gut health include its microbial population, physical structures, and immune function. A healthy microbiome relies upon all three. Gut-supporting practices that only address one area typically don't restore a dysfunctional gut. The Microbiome Labs Total Gut Restoration system is uniquely designed to support gut restoration by targeting all three fundamental aspects of gut health.\*\*

**MEGA**  
SporeBiotic™

MegaSporeBiotic™ is the first 100% spore-based, broad-spectrum probiotic whose support is clinically shown to RECONDITION the gut. This pioneering 100% spore-based formula supports microbial diversity and key, health-maintaining, commensal gut bacteria. MegaSporeBiotic™ boasts a shelf-stable, requires no refrigeration, and maintains efficacy and 99.99% survivability during the digestive process.\*\*

## SUPPLEMENT FACTS

Serving Size 2 Capsules  
Servings Per Container 30

Amount Per Serving	% Daily Value	
Proprietary Probiotic Blend	295 mg	†
	4 Billion CFU	
<i>Bacillus indicus</i> , HU36™		†
<i>Bacillus subtilis</i> , HU58™		†
<i>Bacillus coagulans</i> (SC-208)		†
<i>Bacillus licheniformis</i> (SL-307)		†
<i>Bacillus clausii</i> (SC-109)		†
† Daily values not established.		

**OTHER INGREDIENTS:** Cellulose, vegetable capsule (cellulose and water).

### SUGGESTED USE: Ages 5+

Start with ½ or 1 capsule with a meal and increase using the following protocol:

**Week 1** Take 1 capsule every other day

**Week 2** Take 1 capsule daily

**Week 3+** Take 2 capsules daily

Children under 5 years of age, please consult with your healthcare practitioner.
