

Access Ingenuity has been a cornerstone for disability-focused services and technologies. Positioned in the San Francisco Bay area and extending our reach to clients nationwide, we offer various accessibility solutions for individuals with disabilities and the organizations that support them. Our expert consultation services span a variety of platforms such as document remediation, website and mobile app evaluations, and remote training that focuses on accessibility and assistive technologies. We engage with establishments of all scales in education, government, and the private sector, adapting and tailoring our systems, solutions, and services to address each client's unique requisite.

CORE COMPETENCIES

Accessible Documents

We are proficient in ensuring accessibility across a variety of file formats including PDFs, Microsoft Office files, and EPUBs. Our team focuses on guaranteeing that your content is fully compliant and universally accessible, taking into account the myriad of needs presented by your diverse end-user base.

- Document Evaluation
- Compliance Remediation
- PDF Accessibility Assurance
- Microsoft Suite Accessibility
- EPUB & InDesign File Adaptation

Website & Mobile Evaluations & Testing

Experienced consultants, specialized testers, and accessibility experts stand ready to evaluate digital platforms and websites meticulously. By combining a keen eye for detail with a profound understanding of WCAG 2.1 guidelines, we can identify, address, and remediate potential accessibility issues while preparing thorough ACR/VPAT reviews.

Digital Accessibility Training

Robust beginner to advanced-level digital accessibility training, encompassing topics from crafting WCAG 2.1 compliant PDFs to using software like JAWS and VoiceOver for accessibility testing. Customizable to your unique needs, remote training is offered in a single or group setting.

Assistive Technology Training

Training extends to a broad spectrum of tools, including JAWS, FUSION, ZoomText, and Braille displays. Offered in both remote and on-site formats, catering to different requirements and conveniences. Advancing the proficiency of individuals or teams in assistive technologies.

Training Highlights

- Remote or on-site delivery for convenience.
- Focus on creating accessible PDFs and websites.
- Customized trainings tailored to a group or team.
- Hands-on guide to implementing accessibility guidelines.
- Personalized assistive technology training available.

PAST PERFORMANCES

- U.S. Mint
- U.S. Army Corps of Engineers
- U.S. Equal Employment Opportunity Commission
- U.S. Access Board
- CA Department of Health Care Services
- CA Community Colleges Chancellor's Office

DIFFERENTIATORS

- Pioneers: 20 Years in Accessibility Services & Solutions
- Real User Testing: Ensuring Genuine Accessibility
- Certifications: Trusted Tester, IAAP, JAWS, and NVDA Certified
- Compliance Mastery: Adherence to Section 508 and WCAG 2.1 AA
- Comprehensive Training: Custom, Scalable, On-site and Remote
- Agile Approach: Quick, Efficient Service Delivery with Regular Updates
