Needle-Free Filler Facial

This non-invasive, anti-aging skin treatment, softens fine lines and wrinkles by plumping the skin, and adding back volume to the face. House of PLLA HOP+ Pilleo Mask Treatment is comprised of the highest concentration of Poly L-Lactic Acid (PLLA), which stimulates the production of collagen, and is also found in thread lift treatments and injectable treatments. In this case, PLLA is applied topically with a blend of other anti-aging ingredients and driven in with the patented delivery system. Results are cumulative and maximized with the HOP+ home care system. This treatment is given once a week for five consecutive weeks. Home care included.
