A Letter to my Customers

Thank you for your interest in Eastover Collection. This business began in 2013, soon after the birth of my third child, as desire to channel my creative energy and passion for beauty, architecture, design, and, of course, gardens! In the last ten years, this business has been an absolute joy. I have worked with wonderful people and contributed to exciting projects nation-wide. It is a privilege every time we receive an order and have the opportunity to bring beauty to our customers' outdoor spaces with our stylish, non-rotting line of planters and garden accents.

I would also love to add that our wonderful team of craftsmen, painters, and helpers is integral to this work. They have such incredible creativity, professionalism, and problem-solving skills. They execute on my ideas and sketches and make everything possible. I am so thankful for them. They also relish the creative process and find immense satisfaction in helping our customers achieve their vision.

As I consider the next ten years, I know it will be filled with many new friends, customers, and projects! I can hardly wait! We are busy working on new designs in the planter and garden accent categories as well as updating our website with these images. As you peruse the catalog, please reach out with any questions. We remain very nimble and can execute on custom sizes, paint colors and designs.

Thank you again, and we hope you will find inspiration for your garden spaces at Eastover Collection!

Warmly, Kate Morrison

Custom color available

Custom Window Boxes and Trough Planters

Please email sales@eastovecollection.com for pricing based on your specific need. You can email pictures and measurements and we can assist in determining size, color and style.

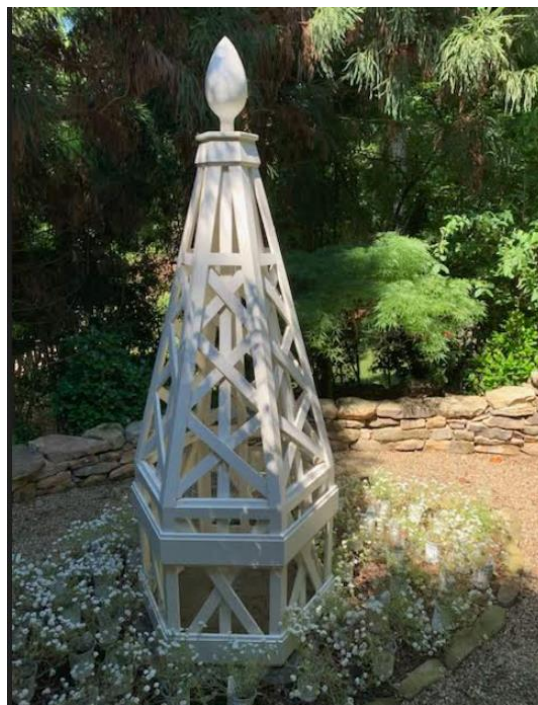

Delivery and Shipping

We charge \$95 for delivery in the Charlotte area. We can drive items up to 4 hours away from Concord, NC, if it is more economical than shipping. We also offer installation services for an additional fee depending on scope of work.

For shipments, we securely wrap and crate items. Items are then shipped through an LTL carrier. We insure all shipments. For larger items, such as the obelisks, we need to ship to a commercial location with a forklift to lower the crate. We are happy to provide quotes on shipping and find the best solution.

Product Care and Painting Information

Our products are made in a PVC material, which does not rot and takes paint beautifully. We put drain holes in the base of each planter box or window box. You do not need a separate liner. We use Sherwin Williams Duration and Superpaint vinyl-safe formulas, both are exterior latex. For custom color orders, we match the color into the Sherwin Willams paint. If you would like a sample, we can send one for a small charge. To repaint any Eastover Collection products, you can reach out to us to get the original paint color. We save all colors on each order. We always recommend using a vinyl-safe exterior latex formula.

Trade Pricing

We happily offer designers a 10% discount off of the retail price. We require a sales and tax ID for our records in order to process a trade order.
