## VIKING TRUNK LID ORGANIZER

### A: Installation WITH HD Tour-Pak Rack Installed

**Note:** if you don't have luggage rack installed, please skip to the instruction section B (see below).

#### Step 1:

Open the Tour-Pak and from inside, remove 2 of the acorn nuts holding the rack in place.

#### Step 2:

Install the mounting tabs by passing the nuts through the holes in the tabs and loosely tightening it. Repeat the process for other 2 nuts.

Fig B. Closeup of Tab

#### Step 3:

Snap the mounting tabs to the female snaps on back of the Lid Organizer.

### B: Installation WITHOUT HD Tour-Pak Rack Installed

#### Step 1:

Open the Tour-Pak and hold the Lid Organizer against the lid of the trunk to ensure you are aware of where exactly you'll be mounting the Lid Organizer.

## Step 2:

The back of the Lid Organizer comes with a 'loop' strip and a removable 'hook' strip attached. The back of the removable strip is lined with an adhesive. Remove the white tape from all strips and holding the Lid Organizer in the same position as Step 1, press the Lid Organizer against the lid wall firmly so the adhesive sticks on to the Lid

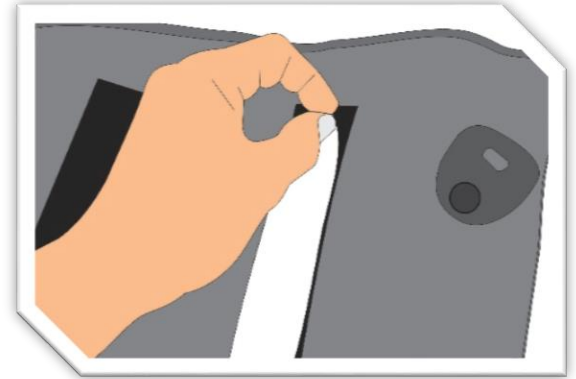

Fig C. Adhesive Tape

## Note

- ✓ After sticking the Lid Organizer to lid, leave the organizer attached to the lid for at least 20 hours to allow adhesive to reach full strength.
- ✓ Lid Organizer may be detached when not needed since it attaches to lid using the hook and loop strips.

Fig D. Organizer Installed

## Briefcase Conversion

The organizer can be easily carried as a briefcase. To carry it as a briefcase, fold the bag in half with pockets towards the inside of the fold. Use the hook and loop strap to keep the bag folded as shown in the following illustration. Use the holding strap to carry the bag.

## Warnings

- ✓ Never ride with Improperly Installed Hardware
- ✓ Viking Bags is not responsible for any damage caused due to improper installation of any luggage accessory.
