

Viking Tactical Motorcycle Sissy Bar Backpack

Parts Included

- i Tactical Sissy Bar Backpack.
- ii Sunglasses Pouch
- iii Dry Pouch

Note:

For bikes with a backrest pad or shorter sissy bars, you may only be able to use the bottom 2 straps. In such a case, make sure the top strap is securely stowed away and doesn't hang loose.

Tip:

- 1) The bag includes backpack straps that can be stowed away when not in use.
- 2) The bag may be installed on the passenger pillion seat or luggage rack. The installation steps remain the same other than orienting the bag in front of the uprights or behind them.
- 3) For sissy bars featuring bigger backrests, it may be necessary to fully detach the straps to accommodate the backrest and subsequently re-fasten them.

Step 1 :

Place the Tactical backpack on the luggage rack or passenger seat with the side of the strap facing the sissy Bar/Backrest uprights. See Figure A.

Step 2 :

Wrap the 3 straps around the sissy bar and connect the buckles. Pull straps to tighten.

Care : 

Clean with warm water and mild detergent. Air-dry only.

Warnings

- Do not install if any of the mounting straps are damaged or impaired.
- If you have any questions or concerns about installation, call Viking Bags or consult your local mechanic.
- Ensure no part of the bag constructs any of the moving parts of the bike.
- Viking Bags is not liable for any damage or malfunctions caused to your bike during the installation process.
