

# VOYAGE PREMIUM TOURING LUGGAGE BAG:

## Parts:

- i Touring Bag
- ii Rain Cover
- iii Mounting Straps
- iv Shoulder Straps

## Note:

The bag may be installed on the passenger pillion seat or Luggage Rack. The installation steps remain the same other than orienting the bag in front of the uprights or behind them.

## Instructions:

### Step 1

Place the bag on the passenger seat or luggage rack with the mounting straps facing the backrest / luggage rack uprights (See Figure A).

(Fig A)

### Step 2

Run the hook and loop straps around the backrest or luggage rack uprights.

### Step 3

With the bag securely in place, attach the 4 quick release buckle straps to 4 solid vehicle structures. These structures differ from bike to bike but must be a solid part of the motorcycle frame or luggage rack. (See Figure B)

## Step 4

With buckle straps attached, pull the straps to tightly secure the bag.

## Step 5

Ensure all excess strapped is rolled up and secured using the hook and loop tabs on the buckles. (See Figure C)

## Rain Cover Installation:

### Step 1

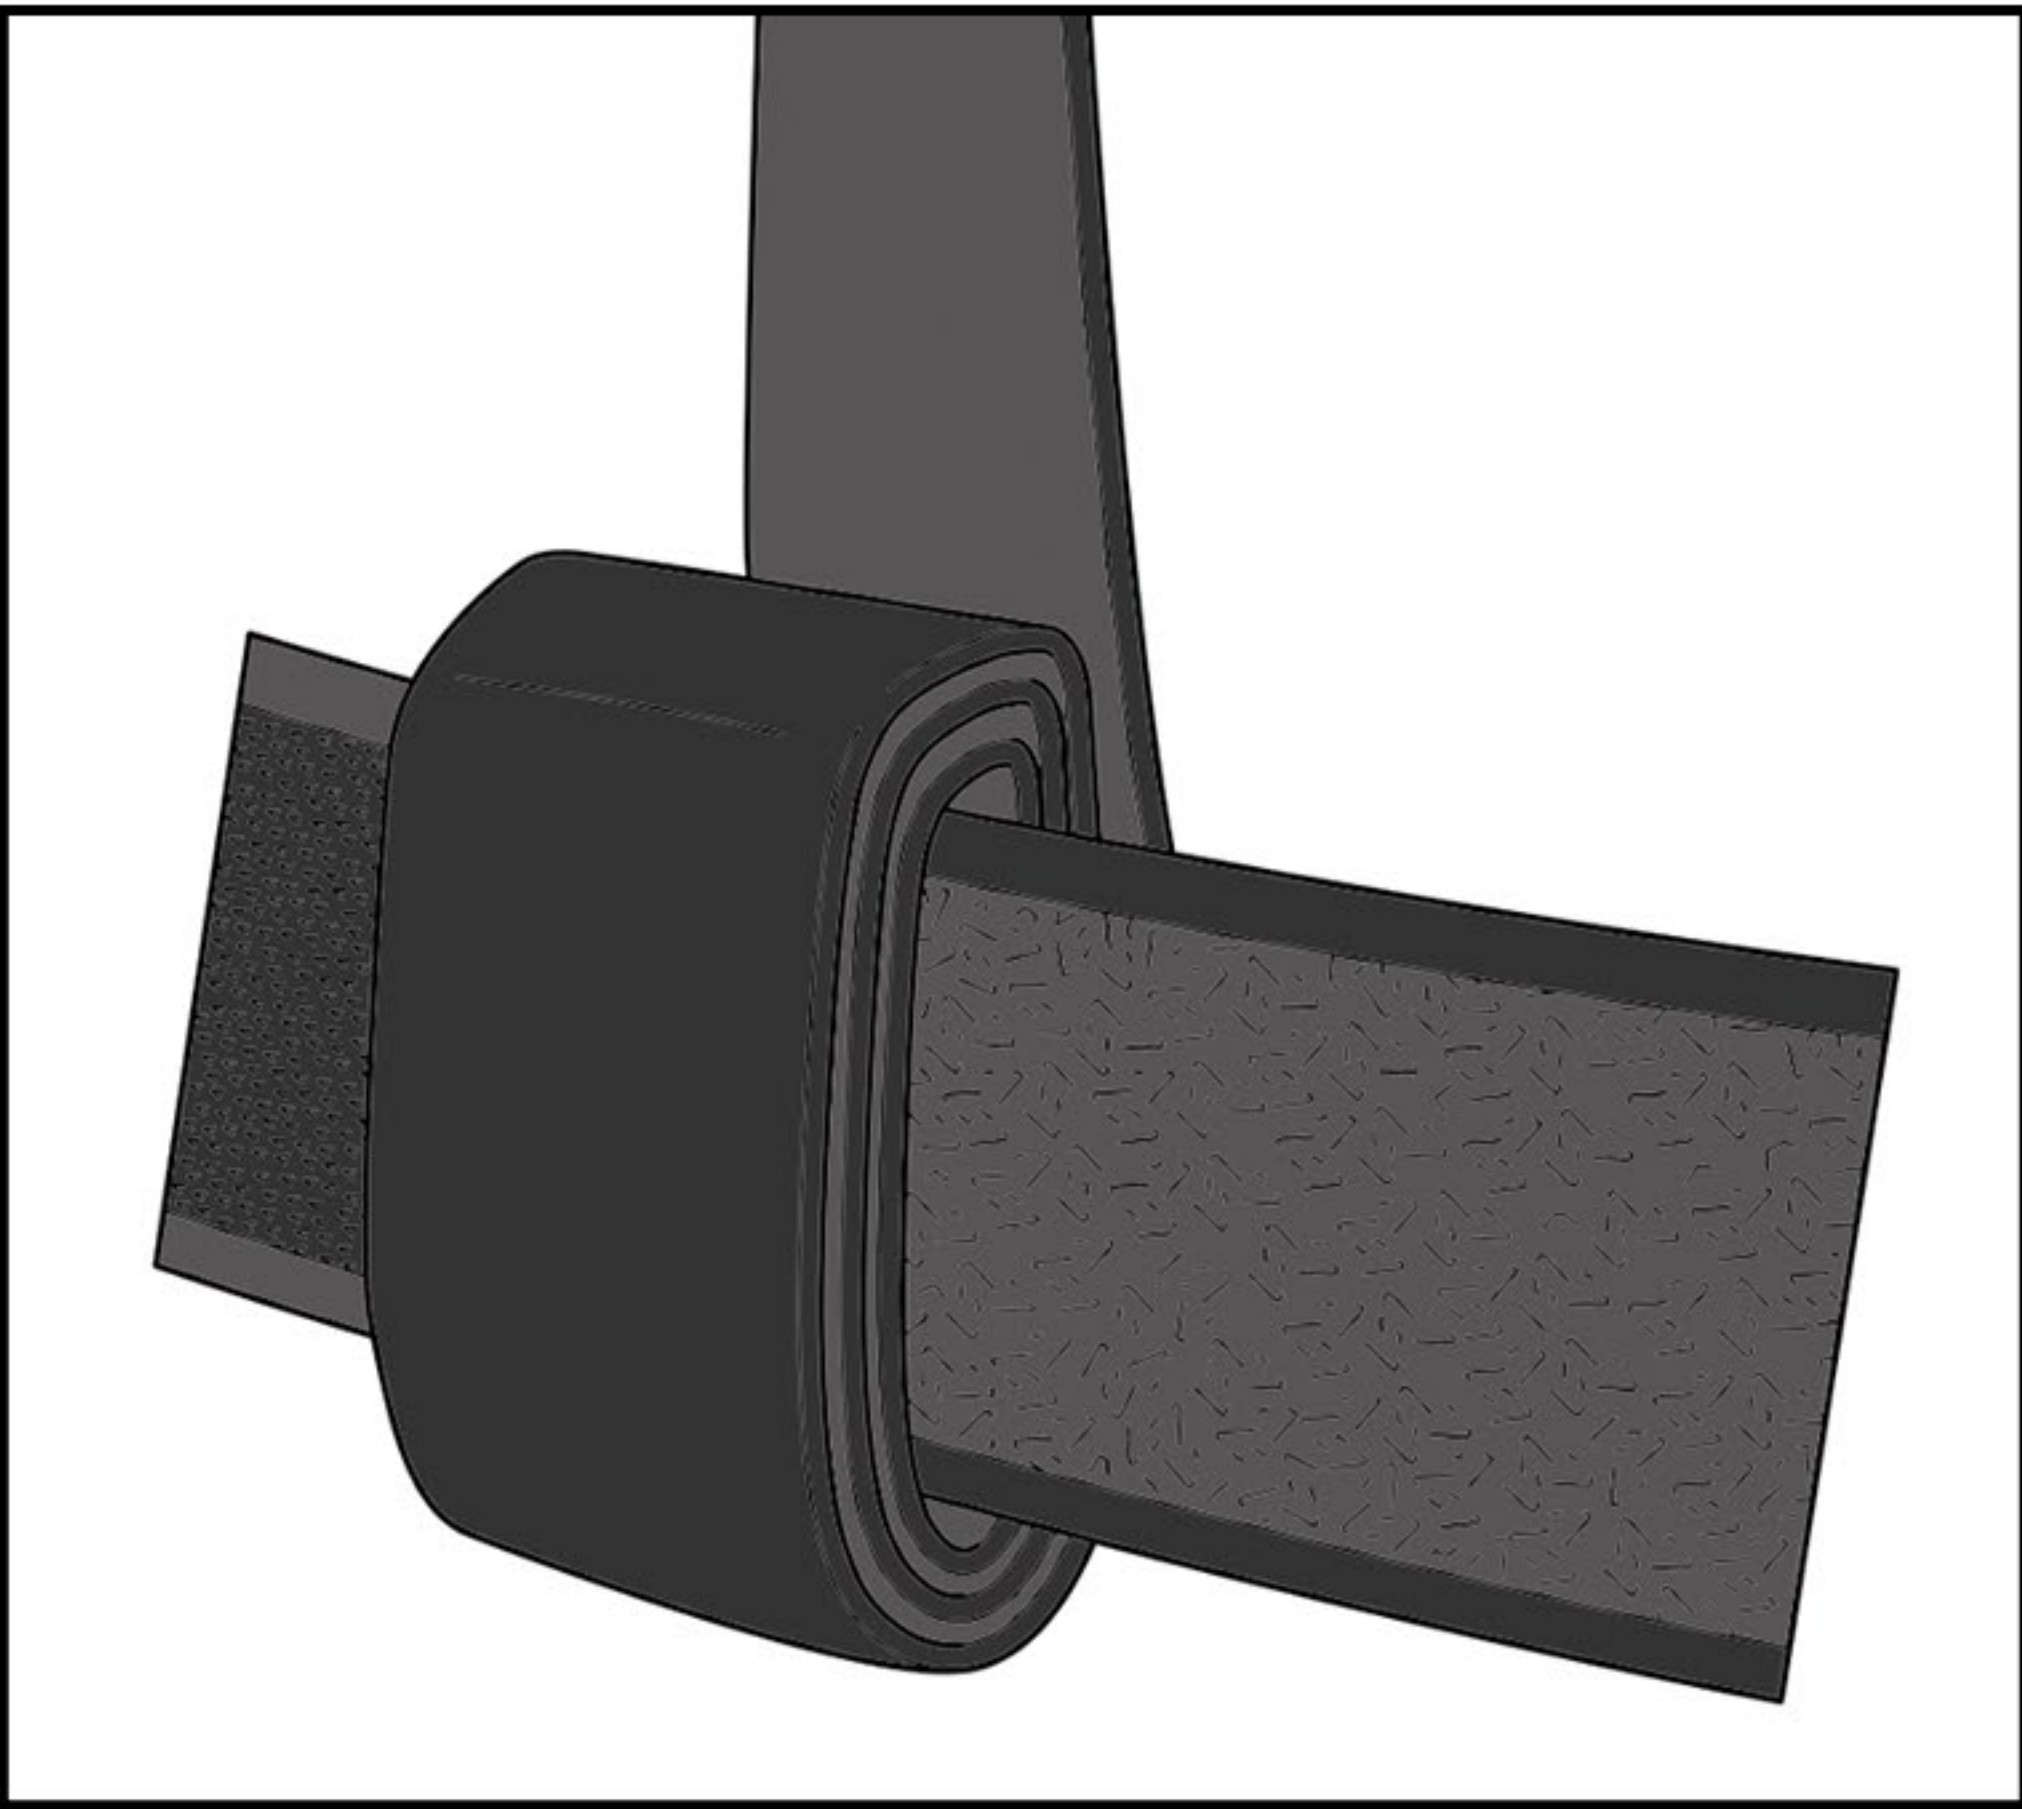

Pull the rain cover over the bag and pull the drawstring at the bottom to tighten.

### Step 2

Secure the drawstring in place using the barrel lock.

(Fig B)

(Fig C)

## Warnings !

- Viking Bags is not responsible for any damage or injury caused by improper installation or use of the product.
- In case of confusion, please consult your local certified mechanic or give a call to Viking Bags and one of our experts will help you.
- Do not install if you have confusion about any of the installation steps.
- Regularly check mounting straps to ensure the bag is secure and held under tension.
