

Mycopro Ag

ENDO & ECTO MYCORRHIZAL FUNGI

Net Weight 20 lbs/9.07 kg

CONTAINS NON-PLANT FOOD INGREDIENTS.
Guaranteed Analysis - Soil Amending Ingredients

ACTIVE INGREDIENTS

Endomycorrhiza
Rhizophagus intraradices38 spores/gram
Claroideoglomus etunicatum38 spores/gram
Funneliformis mosseae38 spores/gram
Rhizophagus aggregatus38 spores/gram
Septoglomus deserticola5 spores/gram
Claroideoglomus claroideum.....5 spores/gram
Rhizophagus diaphanus5 spores/gram
Rhizophagus clarus5 spores/gram
Acaulospora colombiana5 spores/gram

Ectomycorrhiza
Pisolithus tinctorius - 450,000 spores/gram
Rhizopogon luteolus - 5,500 spores/gram
Rhizopogon fulvigleba - 5,500 spores/gram
Rhizopogon villosulus - 5,500 spores/gram
Rhizopogon amylopogon - 5,500 spores/gram
Scleroderma cepa - 11,000 spores/gram
Scleroderma citrinum - 11,000 spores/gram
Suillus granulatus - 145,000 spores/gram
Laccaria bicolor - 29,000 spores/gram
Laccaria laccata - 29,000 spores/gram

99% Total Other Ingredients

Purpose: help increase water and nutrient availability.

Mycopro Ag Complete is a concentrated, fine, suspendable blend of 9 endomycorrhizal species and 10 ectomycorrhizal species with a particle size less than 220 microns (will pass a #70 screen). Mycorrhizal fungi colonize roots and extend into the surrounding soil forming an essential link between plant and soil resources. When this relationship occurs, it greatly enhances the plant's ability to absorb water and nutrients, which may result in enhanced plant growth, vigor and tolerance of environmental stress.

FOR AGRICULTURAL USE ONLY

APPLICATION METHODS

Mycopro Ag Complete is a suspendable powder mycorrhizal inoculant that can be sprayed onto bare roots, used as a root dip, drenched into porous soils, hydromulched, or blended into potting media. Use higher rates for propagation or high-stress circumstances.

The goal is to create physical contact between the inoculant and the growing roots.

Information regarding the contents and the levels of metals in this product are available on the internet at <http://www.aapfco.org/metals.html>
Storage & Handling: For maximum shelf life store between 40° and 85° F. Avoid temperature in excess of 120° F. Store in a dry, cool, well ventilated area. To the extent consistent with applicable law, seller makes no warranty, express or implied, of merchantability, fitness, or otherwise concerning the use of this product other than as indicated on the label. To the extent consistent with applicable law, user assumes all risk of use, storage, or handling not in strict accordance with accompanying directions.
